to our Rose Friends. . .

As our catalog goes to press (September 1959) Oregon is celebrating its Centennial Year, and many visitors from far away places have stopped to visit our rose fields and wander through our display area where thousands of potted roses are in neat attractive beds for their selection throughout the Summer.

Our modern warehouse, office and display area is located in the center of our 88-acre Rose Nursery, located on Highway 8, just west of Portland, between Beaverton and Hillsboro (see map, back cover). Here we sell roses every month of the year: Dormant Bare Root Roses are shipped to every State in the Union between November 1st and May 15th; Potted Roses in fiber containers are available for pickup at the nursery between May 1st and late October. (We do not ship potted roses, as freight is prohibitive.)

May we urge that you ORDER EARLY TO AVOID DISAPPOINTMENT, as many items are in limited supply, and we anticipate an unusually heavy demand. If you order after February 1st, PLEASE LIST ALTERNATE VARIETIES ACCEPTABLE TO YOU to avoid delay and correspondence. (We will give you equal or better value.)

Henry & Julia Hausch

GUARANTEE—Our Oregon-grown roses are of finest quality, selected 2 yr. No. 1 grade plants, budded on our own special strain of Multiflora Japonica root stock, for extra vigor and long life, and for a strong fibrous root system.

If any rose purchased fails to start growing the first Spring after being properly planted and cared for, we will replace free of charge. THIS FREE REPLACEMENT POLICY DOES NOT INCLUDE PACKING AND SHIPPING CHARGES, which is 50c per plant. Any claims for adjustment MUST BE MADE WITH US ON OR BEFORE JULY 1st on purchases made the preceding Fall or Spring. In no event will we be liable for more than the original purchase price.

NOTE: Do not ask us to replace stock that you have neglected, subjected to weed killer, or that has been destroyed by extreme weather conditions.

SHIPPING—Our new rose crop is available about November 1st, at which time we commence shipping, and continue through May 15th for colder areas.

All Dormant Roses shipped out will be top quality, 2 yr. No. 1 grade, the finest available, moderately pruned for planting. In the early Spring, all newly planted bush roses should be cut back to six or eight inches of top; climbers to 12 to 15 inches.

MINIMUM MAIL ORDER — \$3.00.

All dormant plants are shipped by parcel post prepaid to your door, but due to increased shipping costs, we find it necessary to make a FLAT HANDLING CHARGE OF 50c PER MAIL ORDER to one address. This applies whether the order is for one plant or 50. YOU PAY ONLY 50c PER SHIPMENT . . . We pay the rest.

Exception—No handling charge in Greater Portland area.

SUBSTITUTIONS—We never substitute unless advised to do so. However, due to unknown demands, we sometimes get "sold out" of certain varieties early in the year, and cannot always supply all the varieties you order. To eliminate correspondence and delay, PLEASE INDICATE IF WE MAY SUBSTITUTE VARIETIES OF EQUAL OR MORE VALUE in the same color range as ordered, or list one or two substitute varieties acceptable to you. **ORDER EARLY AND AVOID DISAPPOINTMENT.**

1 of each, all 4 for
\$8.95

PINAFORE Plant Pat. 1810

A precious, unique low-growing Floribunda which is a bower of bloom from Spring until heavy frost, and is desirable for low borders and for planting with evergreen azaleas for constant color in the garden. The dainty buds are soft pink, opening to single pure white blooms in hot weather, and tinged with pink in cooler weather. The large clusters of bloom nearly hide the glossy foliage on the neat compact plants, 18 inches. Silver Certificate Award, City of Portland. \$2.50 each; 3 for \$6.60.

Picture — Bed of Pinafore
at the Queen's Court of Portland
International Rose Test Gardens

As we go into our 25th year

of growing roses commercially, we are gratified to have the opportunity of introducing two new delightfully different roses for 1960 . . . pictured here.

HIGH TIME — a tall glamorous fragrant Hybrid Tea.

PINAFORE — a precious unique dwarf floribunda for low borders.

We feel that these two new 1960 Roses will be favorably received, as were our two previous introductions:

DEAN COLLINS — "The Lazy Gardener's Rose". Rose-opal and carmine grandiflora that gives outstanding performance in hot weather.

AUDIE MURPHY — The red Hybrid Tea that has no equal for long tapering buds and prolific bloom. A favorite for coastal areas.

The ROSES in this catalog marked with this sign

have received the highest score of all roses tested in the 19 official test gardens in the United States and have been given an award by the ALL-AMERICA ROSE SELECTION COUNCIL in the year of their introduction.

HIGH TIME

HIGH TIME Plant Pat. 1809

A new wonderfully fragrant Hybrid Tea that has everything—exquisite form to the long unshaped buds and high-centered blooms of flame to claret-rose with gold on the reverse of the petals. The foliage is luxurious and glossy, on a tall well proportioned plant, which sets off the abundant dazzling blooms which come in such profusion. \$3.00 each; 3 for \$7.95.

AUDIE MURPHY Plant Pat. 1558

Hybrid Tea. Long furled buds of vivid crimson on long cutting stems unfold into brilliant heavy-textured blooms of iridescent red with a velvety sheen. Spicy fragrance; prolific bloom; dark green disease-resistant foliage; vigorous growth. Gold Certificate Award Winner. \$2.50 each; 3 for \$6.60.

DEAN COLLINS Plant Pat. 1279

Grandiflora. Called "The Lazy Gardener's Rose" because it thrives everywhere with a minimum of care. Vigorous plants with glossy disease-resistant foliage. Very double, long-lasting blooms of rose-opal and carmine. Even more beautiful in hot weather — a luminous coral-salmon. \$2.00 each; 3 for \$5.25.
